Professional Summary

Frontend Developer with 13+ months of professional experience building scalable, user-centric web and mobile applications using React.js and React Native. Proven track record of delivering modern UI solutions, integrating REST APIs, and transforming designs into production-ready applications. Strong foundation in full-stack development with Node.js and MySQL, enabling effective collaboration across the entire development lifecycle. Passionate about clean code, performance optimization, and continuous learning.

Technical Skills

Frontend Technologies: React.js, React Native, JavaScript (ES6+), HTML5, CSS3, React Hooks, Redux
UI Frameworks & Libraries: Bootstrap, Material UI, Responsive Design, Component Libraries
Backend & Database: Node.js, Express.js, MySQL, REST API Integration, API Development
Tools & Platforms: Git, GitHub, VS Code, Android Studio, npm, Webpack, Chrome DevTools
Development Practices: Agile Methodology, Code Review, Version Control, UI/UX Implementation

Professional Experience

Walter Technologies **May 2024 – Present**
React Developer *Ahmedabad, Gujarat*

- Architected and developed responsive web applications using React.js, improving user engagement by implementing modern UI patterns and component-based architecture
- Built cross-platform mobile applications with React Native, ensuring consistent user experience across iOS and Android platforms while maintaining 95%+ code reusability
- Integrated RESTful APIs and managed application state using Redux and React Hooks, optimizing data flow and reducing API call overhead by 30%
- Collaborated with backend developers to design and implement efficient API endpoints using Node.js and MySQL, enabling seamless frontend-backend integration
- Transformed Figma/XD designs into pixel-perfect, accessible UI components using Material UI and Bootstrap, ensuring WCAG compliance
- Implemented performance optimizations including code splitting, lazy loading, and memoization, reducing initial load time by 40%
- Conducted code reviews and mentored junior developers on React best practices, component reusability, and modern JavaScript patterns
- Utilized Git for version control and collaborated using Agile methodologies with daily standups and sprint planning

LogicRays Academy **January 2024 – April 2024**
React Developer *Ahmedabad, Gujarat*

- Developed and maintained multiple React.js applications, focusing on creating reusable component libraries and maintaining clean code architecture
- Implemented responsive designs using CSS3, Flexbox, and Grid layouts, ensuring mobile-first approach and cross-browser compatibility
- Integrated third-party libraries and APIs, including payment gateways and authentication services, enhancing application functionality
- Debugged and optimized existing codebases, improving application performance and resolving critical bugs in production environments
- Participated in requirement gathering sessions and translated business requirements into technical specifications

Education

Ganpat University **August 2022 – 2025**
Bachelor of Science in Computer Application & Information Technology *Ahmedabad, Gujarat*

- Relevant Coursework: Data Structures, Algorithms, Web Development, Database Management Systems, Software Engineering
- Academic Projects: Built full-stack e-commerce platform, developed real-time chat application, created portfolio websites

Key Projects & Achievements

E-Commerce Web Application | *React.js, Node.js, MySQL, Material UI* **2024**

- Developed full-featured e-commerce platform with product catalog, shopping cart, checkout flow, and user authentication
- Implemented secure payment integration and order management system with real-time inventory updates
- Designed responsive UI with Material UI, achieving 100% mobile responsiveness and optimal UX across all devices

Cross-Platform Mobile App | *React Native, Redux, REST APIs* **2024**

- Built and deployed mobile application for both iOS and Android with features including push notifications, offline mode, and data synchronization
- Implemented complex navigation patterns using React Navigation and state management with Redux Toolkit

Portfolio Website | *React.js, Bootstrap, Responsive Design* **Ongoing**

- Created personal portfolio showcasing projects and skills using modern React patterns and animations
- Deployed on Netlify with CI/CD pipeline: dhrumiilportfolio.netlify.app

Certifications

ReactJs Developer Certification – Demonstrates proficiency in building modern React applications

Additional Information

Languages: English (Fluent), Hindi (Native), Gujarati (Native)
Interests: Open-source contributions, UI/UX design, performance optimization, emerging web technologies
Availability: Open to relocation and remote opportunities
